Introduction

Your Birthday, Your Year

A solar return is the chart cast for the instant the Sun returns to the exact place it was when you were born, at whatever place you happen to be at that moment. That's simple enough. That happens within a day of your birthday every year, so it's your birthday chart - happy birthday!

But what is it really, and what does it mean? It's two things in one:

- 1) It's a sky snapshot, which gives you an idea of what the planets are up to and what kind of things they are cooking up for you around your birthday and in days to come. It's a quick look at the general state of things, your transits, which is always helpful - but you could do that for any day of the year.
- 2) It's a yearly rebirth chart, a picture of a new you reborn each year in slightly different clothing. It's a yearly overlay to your original horoscope which paints a picture of what the coming twelve months will be like - and, just as important, it paints what you yourself will be like in the coming year. And, unlike your natal chart, you can actually do something about it - by choosing where you will be when it happens, you can change your whole year.

There was a time when the yearly solar return was taken as a virtual replacement chart for your original horoscope. In fact, that opinion was so strongly held among astrologers in the 1600s that English astrology giant William Lilly warned practitioners not to neglect the natal chart in favor of the latest solar return. So, it's a big deal. Your natal chart is still the most important description of you, but your solar return each year has a lot to say about how you're developing and what the year has to offer.

A Special Event

Your solar return has some special attributes that make it unique, which require special attention, and which offer unusual opportunities. Because it's an annual rebirth chart, unlike your natal birth chart which lasts a life time, it only lives for a year - but in that year it has its own, scaled-down mini-life, in which the

day of the solar return is like the year in miniature. By secondary progression, that means that the events of each successive hour of your solar return day foretell a corresponding two-week segment of the coming year. For that reason, it may be a good idea to set aside that birthday period and see that it goes thoughtfully and well - and keep track of exactly what happens all day, as much of that may be reflected in the coming year, week by week. Under any circumstances, treat the day as something spiritually special, a time for pulling together your energies and aspirations, making resolutions - in short, rebirth.

A Travel Decision

If at all possible, carefully select where you will be on your solar return - it's better some places than others. That's because although you can't change the planetary aspects that make up the return, what houses the planets fall in and the areas of life they affect are all determined by where you are on the planet. And that's up to you. You can put the Sun strongly in the first house, if you think you need extra independence and will power in the coming year. Or if you need an extra 12-month economic boost, go somewhere that puts Jupiter in or ruling the second house. By traveling just two time zones away from where you normally would be, you change the house position of every planet in the chart and thus your entire physical agenda for the year. In some cases, that can mean the difference between a year of stagnation and a year of progress. It's pretty powerful stuff, and well worth taking the time to cast your solar return for a variety of possible options and pick the one that delivers the most. Some people use this time of year for vacation, and even visit unlikely places they've never been to for the best possible solar return and a new travel adventure rolled into one.

Wherever you go, or if just staying home is your best bet, be sure you are there at least 24 hours ahead of time, and that you stay there at least 24 hours after the solar return. An extra day's leeway on either side of that couldn't hurt, either. Think of it like pouring cement - you want to have enough time to prepare it, and then proper time to set afterwards. It's got to last the whole year through...

The Foundation for Your Year Sun, Moon, Ascendant

As in a natal chart, the first thing you look at is the position of the Sun, Moon, and Ascendant. Their positions and aspects describe the fundamental vehicle the year will become: they will tell you if you're jumping into a Jaguar or boarding a bus, crowding into a tram or leasing a Lamborghini. Since the Solar return Sun is the same as your natal Sun, any aspects to it are also transiting aspects to your natal horoscope, thus uniquely entwining both charts and making the Solar aspects especially important. The house position of the Sun and Moon tell you where your main action will be all year, and the Ascendant sign show the overall style. Easy aspects of these to the rest of the chart will show a year whizzing by according to plan. Hard aspects will indicate tangles and tests of your resilience. It's all about how to make the most of the best and turn challenges to your advantage to get top results from the year.

The Ascendant

Your Looks, Your Presentation

Family First

Ascendant in Cancer

Your approach this year is cautious, because you care and you want to show that you care. The challenge is not in the intent but in the delivery, as you need to take control where it is important but can't afford to waste your inner resources where they are needed or don't deliver mutual return. When your heart is on your sleeve, there are too many wanting to relieve you of it, but when you play your cards close to your chest, sometimes it can be a lonely game. This year you'll want a creative balance between the two, because you need to move forward with what moves you inside.

Physical Building Arises

Saturn Trine Ascendant

A careful, more conservative and less playful approach may be in store for you this year, or at least that's how you'll appear to others. It's not that you're no fun, just less likely to buy every new product before it's even out of the box. Better to be redolent in the old joys than dive into a new one with less certain prospects.

Objective Insights Arises

Uranus Square Ascendant

Unexpected events can throw off your physical timing this year, so take extra care where you step lest you trip, literally. Things appearing out of nowhere seem to startle and disrupt, though only temporarily, but still putting a nervous edge on situations that might normally flow more easily.

Power Experience Arises

Pluto Opposite Ascendant

Partners may put up opposition this year, blocking your way, locking you out, trying to take control of your actions. That can be the stuff of strife or the opportunity to change horses in midstream. Or, you can simply surrender if it's not worth fighting over. Confrontations have to be mutual to lead to trouble.

The Midheaven

Your Reputation, Career, Life Path

Manage Acceptance

Midheaven in Pisces

What people say about you this year may be totally different than what is actually going on with you, almost as if you're flying a flag of a different nation. That known, it's good to check people's expectations before you invest in satisfying them, so no one comes off surprised or startled by reality.

Manage Emotional Progress

Moon Square Midheaven

Your emotional concern with personal affairs this year may distract from longer-term career or life-building when they don't all exactly compliment each other, which they won't. It's a matter of playing one off the other so that each benefits and neither suffers, which tends to begin exactly the other way around.

Manage Ideas About You

Sun Conjunct Midheaven

This is a perfect year to pursue any and all career prospects you have in mind, as you're likely to throw your inner energies into promoting your outer image with enthusiasm and determination. Now is the time to let people know that you believe in yourself, produce your own show, star in your own life story.

Manage Practical Values

Venus Conjunct Midheaven

This is a year to take advantage of all the praise coming your way and generate some more buzz in the process. They're saying nice things about you, but no harm in compounding the phenomenon with a little encouragement of your own. Getting out and about is more fun when you're enjoying your efforts, and they're appreciated.

Manage Practical Action

Mars Conjunct Midheaven

Strong career efforts are in store this year if you choose to pursue them, and maybe even if you don't, as they may be laid upon your doorstep. Time and energy spent in blowing your own horn and getting out your accomplishments won't be wasted, as the wind is blowing in your direction, so set your sails.

The Sun

Your Inner Personality and Style

Practical Vision

Sun in 10th House

When you raise your flag this year, you raise yourself with it. You're right out there in view because it just seems like the obvious thing to do to get what you want. You personally and maybe financially find it natural to "go public" and put yourself and your wares on display – not just for immediate gain but because you're proud of what you've got, what you've done, and who you are. The essence of success lies in that equation, that you believe in your product and your product is, in essence, you. When you believe your own message, the rest of the world pays attention, and this year you've got that feeling.

Love of the Future

Sun Conjunct Venus

Your purpose this year is to please and be pleased, which sets a pleasant tone on everything, whatever else happens. As with birthday presents, the assumption may be that what you want is what others want, too, and that may not be the case, so make sure your desires are on the same track before you spend.

Ideas for Effort

Sun Conjunct Mars

It's going to be a forceful, high-energy year for you, so expect to be putting out all the time and feeling like doing just that. The heat in your kitchen is high, however, and some lower-keyed people may reasonably want to escape it, so don't push your pace on others not up to the task. You want help, not baggage.

Original Ideas

Sun Conjunct Uranus

This is a crazy period for you, as the unexpected pops up not just from the surroundings but from inside yourself, and some days you may wonder exactly who lives inside that body you see in the mirror. Surprise is good if you're ready for change, so it's really about seizing the day now, as each one is so different, and self-discovery is the name of the game.

The Moon

Your Feelings, Reactions, Emotions

Support Network

Moon in Gemini

This year brings an inner ability to change how you feel and be sensitive to the emotional winds of change in others, as well. You'll be especially able to put your reactions into words instead of firing off without thinking or taking unintended slight sullenly to heart without comment. If you can say it, you can change it, and that goes right down to the most critical matters of the heart. Some may not agree, especially those who would hide their feelings to begin with, and you yourself may find it unusual to be so seemingly glib, but it's a learning experience to be treasured, especially when later the right words may be hard to come by.

Psychological Support

Moon in 12th House

You can get yourself in trouble this year if you don't watch how you react to things right off the bat. Before you respond with a big yes, think twice about what you're getting into, no matter how it feels. Feelings and emotions can delude you, simply because you don't see what's happening behind your back. You may have the opportunity to uncover hidden and previously dark sides of yourself, but don't rush into dark closets without adjusting to the light. There's a fine line between inner discovery and waking sleeping dogs. When in doubt, let them lie this year, or wake them gently.

Loving Act

Moon Square Venus

Changing how you feel about what you want is an earmark of the year, and that can lead to a lot of prevaricating and justification for changes of heart as you hone in on what your real intentions are. You're not really changing your mind, just tightening the focus on your desire, but you'll have to make that part abundantly clear.

Ideas for Success

Moon Conjunct Jupiter

Big feelings and a big heart are a key to the coming year, and that may be to the point of overreaction in the best sense of the word. When something moves you, it lifts you right off your feet, and enthusiasm is not a sufficient word to describe your feelings. You can go a long way with it, if others can keep up with you.

Personally Speaking

Mercury, Venus, Mars

The inner planets change significantly from year to year and indicate the personal permutations your life is going through. Basically, it's the framework of how you play the game, who else is playing, and how they're playing it. Easy aspects mean you win with no contest, hard aspects suggest a more hard-fought game that may put your life skills to the test and increase your personal growth and talents through experience. Take a look at both sides and consider what games to play, what ones to avoid, and the best strategies - whether you want to raise, hold, or walk away.

Mercury

Your Mind and Intellect, Thoughts and Plans, Communication

Psychological Ideas

Mercury in Pisces

Your thought processes don't have to make sense to work well, and sometimes your off-the-wall hunch is as solid as the next person's sure-fire plan. Even if you can't explain it, you can still go ahead with it if it makes internal sense to you. You can troubleshoot and document it after you've proved it works anyway.

Spiritual Ideas

Mercury in 9th House

Putting those big-picture ideas down on paper so they make sense is a theme for the year, so put your head to it. Now's the time to step down that hypothesis to a theory and then into a real plan that makes sense. Just connect the dots, and there it suddenly all appears before you.

Public Career

Mercury Square Jupiter

You can waste a lot of time spinning your wheels over new ideas that require more attention than they're worth this year, so don't chase diminishing returns. It's hard to tell whether something's half-finished and is worth refining or if you're throwing good money after bad propping up a half-baked concept.

Mind Training

Mercury Trine Saturn

Your thinking this year is unusually logical and orderly, which allows you to lay down some well-conceived foundations for projects in preparation. Unhurried solutions are usually the most lasting, and it takes a steady hand to put on the perfect finishing touches as well. From beginning to end, a deliberate pace makes for a robust resolution.

Personally Speaking (continuation)

Mystical Ideas

Mercury Conjunct Neptune

If your brain is in a bit of a fog this year, there's a lesson to be learned: focus isn't everything. Sometimes imagination is the way to go, letting your mind envision new landscapes without having to land on them, allowing yourself free flight to envisage the possibilities, not the probabilities.

Venus

Your Needs, Wants, Desires

Selfless Love

Venus in Pisces

Pleasure comes as much in the imagination as in the tangible gifts that you might seek, as it's more about heeding the romantic call than digging into any one pleasurefest that actually delivers pleasure. Tenuous threads of the spirit call up possibilities that may seem unearthly at time, yet strangely satisfying.

Spiritual Love

Venus in 9th House

You can't get what you want unless you can get your head around it. This is a year when you increase the width, breadth, and depth of your desires, when by thinking bigger you can imagine a new scale of satisfaction that can be obtained. You've got to know what to ask in order to receive it.

Mars

Your Energy, Life Force, Excitement

Direct Action

Mars in Aries

Quick deeds, strong actions inspire you with an urgency that says get the job done first. You'll do that, for sure, but just check to see that it's a job well done and that the follow-through is attended to as well. Avoid the temptation to hit hard and move on unless you know that's exactly the maneuver required.

Efficiency Drive

Mars in 10th House

Maximum effort goes into making your mark this year, raising your billboard so that everybody knows who you are and what you've got. It's important to do it well, because once it's done it will yield dividends well beyond these twelve months. Make yourself memorable, you're worth the effort.

Business Savvy

Mars Sextile Jupiter

New opportunities energize you and manage to stay just of the inside of the envelope where you don't have to push too hard to keep things growing. It's kind of like things are developing by themselves and you're just getting some nice exercise going along for the ride. You're in sync, so you don't notice your accomplishments.

Personally Speaking (continuation)

Ideas of Freedom

Mars Conjunct Uranus

The temptation for sudden, severe action is great this year, and it's all a question of how careful you are deploying it. You can take careful aim and hit like an atom bomb, or you can shoot from the hip and miss, your call. It simply rests on your ability to control and focus highly explosive energy at your command.

Achieving

Mars Square Pluto

Breakage could be a problem coming from trying too hard to force the situation in a way that things just don't fit. There's an urgency to get the job done that may cause you to overlook that you're not doing it right, forcing a square peg into a round hole. The right tool for the right task is essential – check to see that's what you're using.

Every year sees the giant planets, the wielders of social and economic change, move along a significant notch, opening new doors of opportunity, while closing others. Each solar return suggests a new shift in strategy to get you where you're going and keep you ahead of the game. It's about what's new and what's not, what's happening and what's history. When you know when the shift is about to start and where it's going, you know which way to steer.

Jupiter **Ambitions, Goals, Possibilities**

Communications Career Jupiter in Gemini
 A year of multiple plans and schemes is ahead, where everyone talks a lot about what they're about to do, but not all of it will be decided or acted upon. There's more discussion than action, and lots of avenues are explored before narrowing down the options. Multitasking is a must, because there will always be more than one iron in the fire.

Community Career Jupiter in 11th House
 The opportunity for gaining close friends expands this year, perhaps to the point of deciding what close really means. Important new people crowd in, but who will last will be the question. Not the worst of problems, but decisions will have to be made, final choices embraced and brought home.

Working with the New Jupiter Sextile Uranus
 It's a good year to invest in mutual discovery, where what you stumble on somehow perfectly dovetails with what just fell into your partner's lap. You don't need to push or pursue the far-out to go really way into yourselves, and you'll probably even have a little help from your friends, because right about now they're probably doing it, too.

Spiritual Insight Jupiter Square Neptune
 This is for the world at large a year for taking that second look at what life seemed to offer, or that it claimed to promise. When optimism fails, hopes lead to disappointment, and a lot of other confusions which are the result of both unclear desires and fuzzy thinking. Be ahead of that game and let others suffer from it.

Saturn

Caution, Wariness, Wisdom, Boundaries

Obstacle: Business

Saturn in Scorpio

Those who have been keeping the wrong sort of secrets will pay for it, but not necessarily in public. Secret or private endings abound and behind-the-scenes justice may give the appearance of business as usual, belying the true change in course. Open and aboveboard is the safest place for you to be.

Obstacle: Creativity

Saturn in 5th House

Indulging your inner child is wonderful sometimes, but this year may be the time to provide the kid with a little discipline. When all you do is play, nothing is any fun. When recess is short, it's heaven when it comes. Apply the principle, and you'll be surprised how focused your creativity can become.

Preserving

Saturn Trine Neptune

This is a year when the world in general seems to be in the process of merging spiritual aspirations with material possibilities. You will likely look back on it with fondness and a sigh, realizing that hope does indeed spring eternal and eventually may triumph. The meek aren't about to inherit the earth quite yet, but where possible let it float your boat for the duration.

The Hard Calls

Saturn Sextile Pluto

This year features a background in which previous social conflict has been resolved and the powers that be seem to be pretty much doing their jobs. It means you'll get more mileage out of being a cooperator and someone who does not rock the boat. There is more headway to be made running with the tide than against it.

The positions of the outer Planets - Uranus, Neptune, and Pluto - change little from one Solar return to the next, so they add more of a backdrop, the stage set on which the yearly play is performed. They are very powerful, however, and their long-running helpful and troublesome aspects are not to be taken lightly. They can be like a rope to swing yourself across the stage or a trap door that will cause a fall if you're not watching. Knowing their aspects with the other inner planets and the Lights, and where they fall by house, lets you in on just where to watch for them, what mood they're in, and how to get them on your side.

Uranus **Discovery, Revelations, New Ground**

Freedom: Action

Uranus in Aries

Discoveries are made by forcing the issue in this seven-year period. Breaks and discontinuities seem to come from out of the blue, even though they have been gestating for some time. Belief systems around you change radically at sudden shear points, revealing the obvious only after the fact, leaving the most aggressive in charge.

Freedom: Practicality

Uranus in 10th House

Stabilizing your career position may be a challenge this year as unexpected news requires you become part of the story and adjust accordingly. Inventiveness and originality is the key to your actions here, and the corner office is reserved for those clever enough to move with the gusty winds to achieve it.

Progress

Uranus Square Pluto

This several-year period (most recently centering around 1933) occurs only once every 128 years and is reputed to have the effect of transforming and sometimes violent technological progress upon society at large. Too lengthy to have much more than a background effect, it nevertheless sets the tone of the period.

Neptune **Dreams, Hopes, and Fantasies**

Embrace: Life

Neptune in Pisces

Spiritual revival will be just one hallmark of this period, as will a general tendency for those who pretend to it not to give to those who actually do it. Flights of romanticism are daily fare, even to those whose life is not romantic in the least. When there is nothing else, there is always a dream, a pure dream, waiting just beyond.

Embrace: Spiritual

Neptune in 9th House

The bigger the idol, the more plentiful the worshippers, the more likely it's feet are of clay. This is a lesson for the year, so watch out who and what you put on a pedestal, as much of it may be your own imagination and hide a hollow center. Projecting yourself upon the heavens, however, is the first step to going there.

Pluto

Necessity and Fate, Power, What Must Be

Control: Practicality

Pluto in Capricorn

A period of sixteen years of a culture value shift toward getting business done as if it were a mission is underway. It will create vast wealth, as it will have little to hold it back morally - but the generation spawned by this period will have to redesign the great structures so made in a deconstruction of what went before. Like when cement skyscrapers were first built - they were touted to last longer than the pyramids, but a generation later they began to fall to the wrecking ball.

Control: Care

Pluto in 6th House

The urge to trample out the vintage where the seeds of annoyance are stored is great this year, but sweeping away the trammels of everyday responsibilities may get you only so far. Revolutionize your schedule, and ever your reason for having one, but don't do away with it altogether. Something must abide to renew.

Featured Natal Positions

Your Best Foot Forward

When Solar return positions occupy the same spaces as planets in your natal chart, this highlights those natal inclinations for the whole year. It will mean that certain elements in your fundamental character will be emphasized both internally and externally. These will be the areas that most appear to represent you for the moment and that others will seize upon as entry points to your personality. These are the areas in which you can put your best foot forward to make the most effective and satisfying steps ahead, your first line of challenges and opportunities to embrace the world.

Mercury

Your Mind and Intellect, Thoughts and Plans, Communication

Mental Accent

Mercury Conjunct Mercury

Your native mindset is reinforced this year, and you're a step further along in your fundamental approach to thinking and analysis. Essentially, you're revisiting your own mind, re-familiarizing yourself with what's unique about your thought processes and sharpening your wit based on a new plateau of self-awareness.

Saturn

Caution, Wariness, Wisdom, Boundaries

Ideas of Discipline

Mercury Conjunct Saturn

You can see and understand your boundaries, and good fences make good neighbors is something everyone around you can understand and agree with. When you make it clear where one plan stops and the next begins, everyone feels more comfortable about where they stand and where they're going. Clarity begets confidence.

Sun

Your Inner Personality and Style

Love of the Future

Venus Conjunct Sun

No one pleases you quite so well as you please yourself this year, so have a good time with it. When you're happy with your own show, so is your audience, and you're likely to be putting on a gracious and ingratiating performance for an appreciative house. Catch some of your own rays, there's nothing like it.

Midheaven

Your Reputation, Career, Life Path

Manage Practical Values

Venus Conjunct Midheaven

You're even sweeter to the imagination than to behold in person this year, and you'll do better letting people talk up how much they want you than trying to stimulate the desire with a personal appearance. Success is its own sweetest flavoring, especially when its applied by someone else, so let it happen by itself.

Featured Natal Positions (continuation)

Sun

Your Inner Personality and Style

Ideas for Effort

Mars Conjunct Sun

You'll be burning hotter than usual this year, and your sometimes fiery approach to selling yourself can be just what's needed to heat up passions all around. You'll have more energy to spare, to add to your endeavors in work or play, and you may tend to leave others behind who aren't up to your inner intensity.

Mars

Your Energy, Life Force, Excitement

Ideas of Control

Pluto Conjunct Mars

It will be very hard to get things off the ground for a while, so take extra vitamins (both physically and emotionally) and stay in there for the long haul. You may find that a lot of it wasn't worth wasting the energy on viewed with hindsight, but it's going to be very difficult to discern that now.

Sun

Your Inner Personality and Style

Manage Ideas About You

Midheaven Conjunct Sun

Your most noble aspiration, the part you consider to be the real you, are at the masthead this year, which should give you a real chance to see if anybody salutes. Regardless, your personality is going to be on display and comments about you will be making the rounds, more than you're monitoring yourself.

Midheaven

Your Reputation, Career, Life Path

Overview

Midheaven Conjunct Midheaven

Your perceived reputation matches your resume perfectly this year, and people seem to have heard what you were saying about yourself and agree with it. That makes things a lot easier, as you don't have to reexplain your goals or accomplishments, just confirm them and get along with business.

Ascendant

Your Looks, Your Presentation

Spontaneous Appearance

Ascendant Conjunct Ascendant

You slip right into your own physical image like a glove this year, and a look into the mirror will only confirm it. You don't have to play yourself because you already are, so follow your natural moves and you'll be totally comfortable. Your native costume, whatever you believe that to be, fits perfectly. You know just what you look like.

Where you spend your birthday and how the sky looks from that location can profoundly affect how your year turns out. The ideal birthday chart has the most favorable planets up front, ready to push you forward and the more troublesome ones tucked away where they can cause the least mischief. Sometimes that happens right where you would normally be, so you can just stay home for your birthday. Sometimes the best place to be is on the other side of the globe, involving an expensive (though perhaps exciting) journey. Often, however, just moving a few hundred miles east or west just for the twenty-four hours before and after your solar return can make all the difference in the world, allowing you to put your best foot forward for the entire year.

Here are a list of places near you and around the world and how being there would affect your coming year. Some are good for growth and expansion, others for learning there are places better for money and career, or others best for home and family development. You choose, and then perhaps take a look at a second, revised report for your new place of choice, your travel decision to improve the year. You will likely find it reads quite differently in many critical areas and perhaps worth the travel expenses to maximize your twelve months ahead.

Take a look at your choices, then decide where to go on your birthday, in order to get to where you want to be the rest of the year.

The Daily News **Transits and Progressions**

From Mar 18, 2013 to Mar 18, 2014

As the year moves on, so does your Solar Return chart: it swings around an entire 360 degrees by daily progression and the Moon moves half a sign. At the same time, transiting events in the sky trigger sensitive degrees of your birthday chart. A general tendency to fire off too fast, shoot from the hip and miss, and boil over unpredictably marks this as a very volatile time. Ascendant on Ascendant (PSR-SR)

It's about the time of your birthday again, so check out your next solar return!

Conclusion

Conclusion: Now That You Know, Where Do You Go?

With the pattern of your coming year described for you now, what's the best way to use all this information? Forewarned is forearmed, and there are several things you can do to maximize your knowledge and get the most out of the year.

1. Make Sure You're In The Right Place

It really does matter where you are for the twenty-four hours on either side of your birthday chart. A basically good year can be made even better by getting the right planets on the horizon or overhead, and a difficult year can be made easier by simply sidelining some of the challenges. Check out several different locations - more often than not, a change of only a few hundred miles east or west of where you are may make all the difference in the world. And, it's a great excuse for a birthday trip.

2. Keep Notes On Your Special Day

It is not unusual that the twenty-four hours of your solar return will be a symbolic miniature of the coming year, in which the happenings of each two-hour period will reflect a corresponding one-month period of the year. Of course, you'll likely sleep through eight hours of it, but keep notes on the rest and guide your activities to make it the best possible day. Along with the report text, it will give you further clues to what's coming and when.

3. Pay attention to what's in the text and use it well.

That means getting in there and making the best of the favorable periods and if possible simply avoiding unnecessary action or at least backing off during the periods that might cause trouble. Seize opportunities and dodge (don't confront) troublesome roadblocks. Better to do nothing than do something disastrous. Then move ahead when the coast is clear. That way you make only forward progress.

4. Think Ahead To Next Year

As you watch this year unfold, take a look at your next birthday chart well ahead of time so you can be where you should be to make it dovetail perfectly with what you're already doing. Smooth transitions save time, boost success and happiness.

5. Take It In Context, Put It All Together

birthday chart is not the only thing that describes your coming year. It's just an overlay of likelihoods, which mixes in with the other astrological windows on your future like transits and progressions. Include the rest and combine them all for a maximized 365 days ahead for you. When you bring everything to bear, nothing gets left out, and neither do you. It's yours for the taking, now go for it.
